

## Improve your life

Are you getting the most out of your career? Your work is central to your life and impacts on every part of it.

- Do you feel unhappy or unfulfilled in your work?
- Would expert guidance help you to get a better job?
- Could your quality of life be improved?
- Do you think you could be earning more?
- Do you know you have a talent but are unsure how to make best use of it?

If you answered “Yes” to any of these questions, then you could benefit from career coaching.

Pro-active career planning allows you to take control. Career Development Consultants (CDC) provide the guidance, support and motivation you need to get on - and stay on - the right track.

*“The time with my coach was most beneficial - found him non-judgemental and very supportive, gave me focus and felt him very honest and straight-forward... Many thanks to you, I really appreciated our meetings and the time to focus and keep motivated.”*

Whether you've found yourself back on the job market, are thinking of changing direction or are looking for a new challenge, career coaching can help you decide what you really want and how to achieve it.

## Find the job that is right for you

Based around tried and tested methods, CDC's career coaching programme is carefully tailored to meet your particular requirements.

The career coaching programme provides:

- Thorough assessment of your skills and strengths, and identification of personal and career goals

A structured support programme, including unlimited telephone / email access to your Coach

- Interview coaching to give you the confidence to interview well, even with an inexperienced interviewer.
- Creation of an interview winning CV and a suite of personal marketing materials.
- The confidence you need to reach your career goals this time and ever after.
- The resources and skills to access and understand the hidden jobs market.
- A lifetime investment in skills and knowledge that means you can manage future career changes on your terms.

*“I am really grateful for all of your help and guidance and thoroughly chuffed that it has helped me achieve my goal!!”*

## Access the 70+% of jobs that don't get advertised...

Yes, it's true. The 1997 Institute for Employment Research's report found that 70% of job vacancies were not filled through advertising.

Employers prefer the hidden job market because it is:

- Highly efficient
- Cheap
- Only the best job seekers bother to use it

CDC's programme guides and teaches you how to un-handicap your job search, pro-actively accessing the hidden job market and maximising your chances of finding a new job that will be fulfilling, enjoyable and lucrative.

*“I had not realised just how few jobs there actually were in the advertised job market. The experience of accessing the hidden job market was both exciting and rewarding – a real eye-opener. Thank you once again for all you've done for me.”*

## Success built on experience and first class service

A wholly independent company, CDC is or has been associated with some of the UK's leading companies in the sector, including:

- Prestigious London West End senior executive Career Coaching companies.
- UK's largest corporate outplacement consultancy.
- Specialist Career Management consultancy based in the City of London.

Working with your consultant can be done either face to face in London, Surrey, Hampshire or Berkshire; or remotely using telephone and email. CDC's dedication, expertise and resources represent exceptional value for money wherever you live.

CDC abides by strict codes of conduct ensuring the highest levels of professional standards and integrity and is a member of the ACP Int. (Association of Career Professionals International).

The written approach of "*I'd very much like to work for your company...a copy of my CV is enclosed*" type of letter generates only 1 response in about 1200. CDC can show you how to create a crafted and accurately targeted letter that increases the chances of an interview to about 1 in 12.

## A rewarding and enjoyable career awaits. Come and get it !
